A Focus on Literacy and Language…

The 2019-2020 series will continue to offer opportunities for networking, learning and sharing expertise among the region’s educational leaders. Participants engage in professional collaborative structures and protocols to explore state documents and local priorities around literacy and academic language development. Past attendees have used these protocols to replicate professional learning in their local contexts. We hope you will join us to engage in an authentic professional learning community of educators with the same interests, passion and dedication for raising student achievement.
